Thanks Terrie.....the CAG meeting, held on Monday evening, went very well – a great exchange of technical information! The one thing you and Ben will want to work out/discuss is exactly how the larger FB group fits in to the overall strategy of how/who you communicate with about the site.

Hi Debbie and Ben,

Kirby and I have had one conference call with CAG members to take input and prioritize TASC services. We have another call scheduled tomorrow with CAG Exec Board members who could not participate in the first call. We have also made contact with Dawn Chapman who plans to speak with the Community Group Board and provide input to us on Monday. There has been quite a lot of communication with individuals. The communications for setting up the work plan are proving to be more time consuming than at many sites, but the communication is important here. I think we are making good progress. If you have any questions or concerns, please let me know. We will submit a work plan for your review and approval as soon as we can.

Thanks.

Terrie
